DIRECTIONS

A PYRENONE® Insecticide Industrial strength-low dosage required. For use in schools, hospitals, institutions, hotels, dairies, supermarkets, restaurants, drive ins, motels, drugstores, food plants, and animal quarters. Provides rapid control of flies, mosquitoes, flying moths (millers), gnats, wasps and accessible stages of roaches, ants, waterbugs, silverfish, flour beetles, mites and spiders.

DIRECTIONS: It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Shake before use. Spray at intervals during prolonged use. Hold container upright. Nozzle away from you. Press valve down and spray.

To avoid possible staining of fabrics or surfaces, use in a well-ventilated area. Close range. Flies, Mosquitoes, Gnats, Wasp (Millers): Close all doors and windows and spray for 1 second per 1000 cubic feet. Direct spray at insects, especially windows and other light sources.

Keep nozzle in constant motion. Close doors and windows for 10 to 15 minutes after treatment. Roaches, Waterbugs, Centipedes, and Sow Bugs: Spray cracks and crevices, behind baseboards and floors, whenever possible.

Ants: Spray trails, nests, and other accessible areas.

Angoumois Grain Weevil: Spray into all parts of the container, particularly the bottom.

each 1000 cubic feet.
