GERMICIDAL DETERGENT

GLOBAN

TECHNICAL DATA SHEET

DESCRIPTION

**PSEUDOMONACIDAL
STAPHYLOCIDAL FUNGICIDAL**

This product effectively eliminates odors at their source. It kills Athlete's Foot Fungus, antibiotic resistant Staph, and many other dangerous disease-causing germs on inanimate environmental surfaces.

This product is effective against all of the following organisms: Pseudomonas aeruginosa, Staphylococcus aureus, Salmonella Choleraesuis, Trichophyton mentagrophytes, Candida albicans, Virucidal against *HIV-1 (AIDS Virus)

Dilution 1:32.....4 ounces per gallon
Disinfectant 1:32.....4 ounces per gallon

USES

USES: Floors, walls, metal surfaces, painted surfaces, exterior bowl surfaces, empty basins, garbage cans, showers, athletic equipment, conductive flooring, and lavatory fixtures in institutions, schools, and hospitals.

DIRECTIONS

APPLICATION: Use 4 ounces of concentrate per gallon of water for a minimum contact time of 10 minutes. For disinfecting, remove filth and heavy soil deposits. Pre-clean all surfaces prior to disinfection, then thoroughly wet surfaces. This product is extremely versatile and can be applied with a mop, sponge, or cloth as well as soaking. Rinsing is not necessary on floor surfaces unless floors are to be waxed or polished. Fresh solution should be prepared at least daily or more often if the solution becomes diluted or soiled.

TO CLEAN AND DISINFECT TOILET BOWLS: Flush toilet. Add 3 fluid oz. directly to water in toilet bowl (3/4 gallon). Brush to cover all interior surfaces of the bowl including under the rim. Allow disinfectant solution to remain at least 10 minutes. Flush toilet. To clean badly stained bowl, repeat above treatment using 4 to 5 fluid ounces. For use in urinals, add 3 fluid oz. to 3/4 gallon of water. Apply by brush to all urinal surfaces. Allow disinfectant solution to remain at least 10 minutes. Flush.

*Kills HIV-1 (AIDS virus) on pre-cleaned environmental surfaces/objects previously soiled with blood/body fluids in health care settings or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood or body fluids, and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of human immunodeficiency virus Type 1 (HIV-1) (associated with AIDS). See product label for special instructions for cleaning and decontamination against HIV-1 (AIDS virus) of surfaces/objects soiled with blood/body fluids.

See product label for additional directions.

SAFETY

Corrosive. Causes eye damage and skin irritation. Do not get in eyes, on skin, or on clothing. To protect eyes, wear goggles or face shield, and to protect skin, wear rubber gloves when handling. Wash thoroughly with soap and water after handling. Harmful or fatal if swallowed. Avoid contamination of food. CAUTION: Refer to M.S.D.S. and product label for additional safety information.

PRECAUTIONS
It is recommended that protective gloves and glasses be worn when using this and all cleaning products.

KEEP THIS AND ALL CHEMICALS OUT OF REACH OF CHILDREN

TYPICAL PROPERTIES

Specific Gravity:..... 1.01
pH:..... 12.4
Active quaternary ammonium chlorides:..... 91.15%
Appearance:..... Clear yellow
Odor:..... Lemon
