

Five Day Clean Sweep

Much more than just clean
smelling, kills germs too!

Hospital Type Disinfectant Deodorant Spray Citrus Bouquet

**RESIDUAL
SELF-SANITIZING
ACTIVITY KILLS GERMS
FOR UP TO 5 DAYS
AFTER USE**

**KILLS HIV-1
AND HERPES
SIMPLEX I & II**

Disinfectant spray ideal for all surfaces. More than just an air spray, its **quaternary compound base** and citrus bouquet scent make it the perfect product for total restroom sanitation.

Residual self-sanitizing activity controls germs for up to five days after use! Effective against a wide variety of microorganisms including Staph, Salmonella, Pseudomonas, HIV-1 (AIDS virus) and Herpes Simplex I & II. It is also fungicidal against pathogenic fungi and prevents the growth of mold and mildew. Eliminates airborne malodors from sick rooms and musty closets. *Contains no ozone depleting CFCs.* USDA rated C-1.

BENEFITS:

- **Disinfect** hard surfaces quickly and easily.
- **Kills HIV-1 (AIDS)** on pre-cleaned environmental surfaces/objects previously soiled with blood/body fluids.
- **Kills Herpes Simplex I & II.**
- **Residual self-sanitizing** action controls germs on treated surfaces for up to 5 days.
- **Deodorizes** and eliminates all airborne malodors at their source, including odor-causing bacteria.
- **Dispenses** an ultra-fine blast of product that doesn't fall out of the air.
- **No CFCs.**
