TECHNICAL DATA SHEET

Highlights

- Non-flammable penetrating lubricant
- Displaces moisture
- Prevents corrosion

SAFETY CAUTIONS

- Keep out of reach of children.
- Contents under pressure. Do not expose to heat or store at temperatures exceeding 120° F. Do not use near sparks or open flames. Do not puncture or incinerate container. Wrap empty container and put in trash collection.
- Refer to M.S.D.S. for additional safety information.

HMIS RATING

DIRECTIONS

Rust Free reduces hazards in the workplace by eliminating the extremely flammable characteristics of most penetrating sprays. It frees rusted and corroded nuts, bolts, studs, set screws, aluminum and copper fittings. Rust Free penetrates through grease, soil, and sludge. It lubricates and prevents corrosion on rusted and frozen parts. It is used in garages, factories, on farm machinery, marine and aeronautical equipment, in shops and homes.

DIRECTIONS:

- Hold container upright 6 to 12 inches from surface to be treated.
- Spray area to be treated and allow sufficient penetration.
- Repeat application for severe corrosion.

TYPICAL PROPERTIES

- Specific Gravity: 0.960
- Propellant: Hydrocarbon
- Spray Characteristics: **Narrow Stream**
- Appearance: **Yellow liquid**
- Odor: **None**
