ORANGE AID

HOSPITAL DISINFECTANT DEODORANT

Aerosol broad-spectrum antimicrobial agent for environmental surfaces.

DESCRIPTION

Fast and convenient, ready-to-use, spray-mist disinfects and deodorizes in one step, leaving a long-lasting, pleasant fragrance after use. Phenolic formulation effectively controls over 19 organisms, including HIV-1 (AIDS virus), Herpes Simplex Types 1 and 2 viruses, and tuberculosis. EPA registered and USDA authorized.

FEATURES AND BENEFITS

- Kills HIV-1 (AIDS virus) on pre-cleaned environmental surfaces/objects previously soiled with blood/body fluids
- Virucidal - Tuberculocidal - Bactericidal - Fungicidal - Controls Mold/Mildew
- Reduces the hazard of bacterial cross-contamination
- Chemically attacks and neutralizes odors at their source
- Freshens the air and long-lasting even in difficult malodorous health care environments

APPLICATIONS AND USES

For use in all health care (including ambulances), institutional, public care, commercial and residential facilities and plants, on: toilet seats, urinal wash basins, refuse cans, telephones, linen carts, laundry chutes, wall knobs, light switches, furniture, machinery, and many other similar surfaces. Sanitizes athletic mats, shoes, and similar porous surfaces.

DIRECTIONS FOR USE

GENERAL: Hold container upright. Shake occasionally.
FOR DISINFECTING, MILDEW CONTROL, AND SURFACE DEODORIZING: Spray on all surfaces. For surfaces, spray from about 6" to 8" until thoroughly wet. Allow to remain undisturbed for at least 10 minutes. Repeat for control of mildew.
FOR DEODORIZING THE AIR: Spray into the air. See product label for special instructions.

TECHNICAL DATA AND PROPERTIES

FORM: Fine spray
COLOR: Colorless
FRAGRANCE: Pleasant
VISCOSITY: Thin
FLASH POINT: N/A
pH: 10
STORAGE: Store in original container.
