

Instant Hand Sanitizer

At Last - A practical approach to the use of waterless hand sanitizers!

Practical because:

... **PUREL** is used as an adjunct to conventional handwashing, not a substitute.

... **PUREL** is a unique ethanol formulation which is extremely efficacious against a wide range of pathogenic microorganisms like Staph and Salmonella, killing 99.5% in just 15 seconds!¹

... **PUREL** is non-irritating, even after repeated use.

... **PUREL** is easily dispensed through Go-Jo's closed system dispensers with disposable refill cartridges.

Additional Features:

- *Cost effective - less than a penny per use!
- *Non-Toxic
- *Pleasing citrus fragrance which dissipates within seconds.
- *Soothes and cools hands
- *Used "on the spot" - no water or towels required.
- *Dispensers mount easily to sides of med carts, patient nite stands, etc.
- *Provides hand sanitizing during water outages.

Use Instructions:

Apply a small amount of PUREL Instant Hand Sanitizer into the palm of the hand, sufficient to cover hands thoroughly (approximately 1.5 - 4.5 cc's). Rub vigorously until PUREL evaporates (approximately 15 - 30 seconds). Use no water or towels. Wash hands with soap and water prior to initial application, after 10 -15 applications of PUREL, when visibly soiled, and after contact with any and all bodily fluids.
