Ultimate Image FLOOR FINISH

RESILIENT FLOOR CARE

Initial Gloss, Gloss Retention, and Durability

HIGHLIGHTS

- Modified Acrylic polymers
- Outstanding gloss
- Reduced sensitivity to ambient application conditions
- Excellent burnish response with no powdering or dusting
- High durability
- Decreased labor cost through less frequent need to buff, burnish and recoat, and a reduction in the number of floor strippings

DESCRIPTION

ULTIMATE is a 25% solids floor finish formulation based on the latest generation of modified acrylic polymers that provides the ultimate in initial gloss, gloss retention, and durability. It may be used in low maintenance mop/recoat programs as well as with high speed burnishing equipment.

DIRECTIONS

APPLICATION (new or existing floors)

1. Thoroughly strip floor with a floor finish stripper.
2. Rinse floor thoroughly with clean water.
3. Apply a sealer base (optional) to worn floors or high traffic floors to improve wear-resistance and enhance gloss.
4. Apply Floor Finish in uniform thin coats allowing time to dry thoroughly between coats. Allow for longer drying time in damp weather.

MAINTENANCE

Dust mop, sweep or damp mop as necessary. If desired, burnish with electrical, battery or propane high-speed buffers using a synthetic or synthetic/natural blend pad. Depending on traffic, burnish 1-3 times a week.
